

J-Force™ Series

The J-Force® series of nozzles by Jetstream are designed to clean pipes with bends. Three sizes are available for use in 2", 3", 4" and 6" pipes. These field-friendly tools require no high pressure seats or seals and no special fluids. All J-Force nozzles have forward, side and rear jets to enable the tools to clean and thrust through pipes with 90° bends. Available in pressures up to 22,000 psi (1516 bar).

DURABLE

- Stainless steel rotor
- Multiple angled jets to provide a complete clean and rotation through high pressure water and no ball bearings

RELIABLE

- Eddy-current braking controls rotational speed for minimal wear and maximum impact
- Designed to navigate 90 degree bends

SERVICABLE

- Complete rebuild in less than 5 minutes
- No oil or grease needed for lubrication
